Art Unit: 1654

1. This application is in condition for allowance except for the following formal matters:

(A) The drawings filed January 16, 2007 are objected to because amino acid sequences subject to the sequence disclosure rules are present in Figures 13 and 14, but SEQ ID NOS are not present after each sequence. See 37 CFR 1.821(d). No SEQ ID NOS have been provided for the amino acid sequences KKKKKK and EEFDAA occurring in the two figures. Applicants are required either to file corrected drawing sheets in order to include the SEQ ID NOS, or more preferably to insert the appropriate SEQ ID NOS in the corresponding sections of the Brief Description of the Drawings.

(B) This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the following reasons:

The specification has been amended to use the sequence identifiers SEQ ID NOS:4 and 5; however, there are only three listed sequences in the sequence listing filed February 11, 2005.

Applicant must provide a substitute computer readable form (CRF) copy of the Sequence Listing, a substitute paper copy of the Sequence Listing as well as an amendment directing its entry into the specification, and a statement that the content of the paper and computer readable copies are the same and include no new matter as required by 37 CFR 1.825(a) and (b).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
